

USG BORAL CEILING BATTEN R203

USG BORAL CEILING BATTEN R203

USG Boral Ceiling Battens R203 are high quality metal brackets used for installation of USG Boral plasterboards to create concealed interior ceiling systems. Made to exacting standards, the USG Boral Ceiling Battens R203 assure reliability and peace of mind.

ADVANTAGES

Strong and safe

Manufactured using high quality Aluminium Zinc of 0.35mm BMT. Specially designed profile helps increase the strength of the overall framing system.

Durable

Aluminium Zinc coated ceiling batten with AZ100 coated mass gives better anti-corrosion performance to the metal framing system.

Fast and Easy Installation

System is easy to be installed. Task can also be completed quickly.

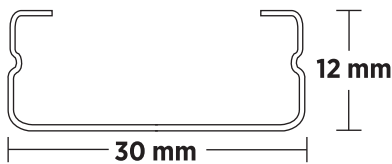

Quality Assurance

Each piece of metal bears the "USG Boral Ceiling Batten" imprint for easy identification and assurance of quality.
